

Promises made *Clear*, Payments made *Quick*

The ClearGage Payment Accelerator™ is a HIPAA and PCI compliant web-based software product designed to calculate, process, and collect your patient's medical payments quickly and cost-efficiently at the point of service. The software is comprised of several distinct modules that when combined, offer one of the most intelligent and comprehensive healthcare payment solutions available.

### ClearCalc™

Empower your medical staff with the knowledge they need to collect patient fees and payments at the time of service. ClearCalc is central to ClearGage's commitment to revolutionize healthcare payment solutions. It satisfies a patient's desire and need to know: *"How much is this going to cost?"*

Using the latest information about your patient's health plan and your agreed upon rates with the patient's carrier, the patient payment estimator calculates a patient's out-of-pocket cost based on the procedures delivered or scheduled. Then it generates a simple, patient-friendly, and easy-to-read statement that you can give to your patient.

### About Us

**ClearGage, Inc.** is revolutionizing the way medical providers do business. By developing innovative healthcare payment solutions and services that employ revenue cycle technology and are HIPAA/HL7 compliant, we're doing our part to bring retail to healthcare and simplify the process of calculating and collecting payments.

### Benefits Your Practice

- Accelerate your ability to calculate and collect patient payments
- Lower collection costs
- Empower your staff with the information they need to collect payment at the point of service
- Save time and money by reducing administrative tasks

### Benefits Your Patients

- Set better expectations and helps them to better understand what's covered by their insurance
- Provide them with an easy-to-read, patient friendly statement that they can take with them
- Eliminate the surprise of receiving an invoice from a provider months after receiving care
- Assist them in making smarter decisions about how they pay for their healthcare services
