Our office's patient payment plans require no credit check or applications. The only requirements are a valid state issued driver's license and two unique forms of payment.

You may be subject to a onetime payment plan set up fee and a payment plan service fee as indicated above which is far less than interest on most credit cards. You will not be charged a plan service fee on the down payment.

You can terminate your treatment plan at any time and you will be responsible to pay for only for those products and services that were provided you.

You understand that my provider has contracted with ClearGage, Inc. dba Healthcare Payment Solutions to act as their administrator of this payment agreement.
